2021-2022 Missouri School Immunization Requirements

- All students must present documentation of up-to-date immunization status, including month, day, and year of each immunization before attending school.
- The Advisory Committee on Immunization Practices (ACIP) allows a 4-day grace period. Students in all grade levels may receive immunizations up to four days before the due date.
- Required immunizations should be administered according to the current Advisory Committee on Immunization Practices Schedule, including all spacing, (http://www.cdc.gov/vaccines/schedules/index.html).
- To remain in school, students "in progress" must have an Immunization In Progress form (Imm.P.14) on file. In progress means that a child has begun the vaccine series and has an appointment for the next dose. This appointment must be kept and an updated record provided to the school. If the appointment is not kept, the child is no longer in progress and is noncompliant. (i.e., Hep B vaccine series was started but the child is not yet eligible to receive the next dose in the series.)
- Religious (Imm.P.11A) and Medical (Imm.P.12) exemptions are allowed. The appropriate exemption card must be on file. Unimmunized children are subject to exclusion from school when outbreaks of vaccine-preventable diseases occur.

Dear St. Dominic Families,

The St. Dominic High School Athletic Department will utilize the Privit program to help collect and share the information pertaining to athletic physicals, which is required by MSHSAA (Missouri State High School Activities Association) for high school athletes to participate in sports. MSHSAA's policy allows physicals to be good for 2 years (730 days) from the date of the exam so please pay close attention to when your physical is due. If you wish to have one every year, you may still do so.

Privit allows you to fill out forms online and digitally sign all documents. Information can be completed on your computer, tablet, mobile or any device connected to the internet. Once you submit all information required, your account will remain available year to year and you will update information saving you valuable time. When completing your account, please select any teams the student will be trying out for to help us ensure everyone has a completed account before tryouts.

Another item required in the Privit account is an Impact test. This is a computerized test that measures memory, attention span, visual and verbal problem solving. ImPACT has two primary uses: before the onset of an activity, a baseline test is conducted to measure the athlete's performance baseline. In the event of an injury, a post-injury test is administered and compared to the baseline score. We will be offering this test online to take at home. Impact tests are also good for 2 years so this should mostly be Freshman and Juniors. Please check the Impact test loaded on your Privit account to ensure your test will be valid for the 2021-2022 school year. Instructions on how to take the test are included along with directions guiding you through creating your Privit account. Only new athletes should create an account. Returning athletes should use the same account from previous years. Impact tests can be taken at www.impacttestonline.com/schools using our customer code: MQHA9SDYUP.

Privit plays an important role for all our coaches and Athletic Trainer. With an app (Privit Sideline) the coaches and the Athletic Trainer will have on their phones, they will be able to access their team's athletic information quickly which will make response times that much faster.

We look forward to your athletes participating in St. Dominic sports and you as parents supporting their endeavors!

Bravely in Faith,

Kevin Roberts
